CLASS OF 1973 25th YEAR REUNION at PETERSON SCHOOL

Dear Fellow Classmates:

Thank you for participating in the 25th Year Reunion of the Class of 1973. Also, to former classmates who transferred to other schools before 8th grade, and to Peterson graduates of other years, we welcome you as well. While grade school reunions are not as common as those for high school, many of us were classmates together at Peterson for as long as nine years (kindergarten through 8th grade). We eagerly look forward to meeting all of you on August 29 for the grand event at our alma mater. Based upon your feedback and input, we have put this commemorative book together to help you catch up and keep in touch with your many old friends and former classmates, including those who were unable to attend the reunion.

Do you remember when our former teachers used manual typewriters, phonographs, reel-to-reel tape recorders, hand-crank mimeograph machines, and black-and-white televisions during our grade school days? Compare the technology we had then with what school kids of today have today, especially computers, the Internet, e-mail, and electronics.

The reunion organizers wish to give our sincerest thanks to all of our classmates who contributed to the reunion and to this publication. We hope you enjoy this book as much as you did our 25th Year Reunion. So, here's a toast to the Class of 1973 and to all other Peterson graduates, former classmates, and former teachers! Please stay in touch.

Sincerely, Bill Tong. Editor

FILL IN THE BLANKS FROM YOUR MEMORY BANKS

Fellow classmates at Peterson thought I was... Three words that best describe me... I think I've become more... Nobody knows I'm... In 7th/8th grade, I had a crush on... My favorite teacher(s)... My favorite subject(s)... My favorite memories of Peterson include... In ten years, I see myself...

JON ANDERSON: Fellow classmates at Peterson thought I was crazy. Three words that best describe me: intense, emotional, loving. I think I've become more educated. Nobody knows I'm still a kid at heart. In 7th/8th grade, I had a crush on Sara Edgren, Betsy Johnson, Kathy Hanson, and Kris Anderson. My favorite teacher was Mr. Hastings. My favorite subject was gym. In ten years, I see myself wealthy and retired.

VIVIAN DELGADO ARENDT: Three words that best describe me: love my life. I think I've become more satisfied with my life. The older I get the more I appreciate each small blessing. Nobody knows I'm busy trying to write novels.

DAVE BLATT: Fellow classmates at Peterson thought I was insane. Three words that best describe me...I have failed! I think I've become more conservative. Nobody knows I'm very capable. In 7th/8th grade, I had a crush on...I'd rather not say! My favorite memories of Peterson include Betsy Johnson getting sanctions from Mr. Wahle for "over reacting." In ten years, I see myself hopefully no longer a failure.

STEVE BURDEEN: Three words that best describe me: hard-working, caring, family-oriented. My favorite subject was math. My favorite memories of Peterson include 7th grade, when I carved my name on a desk, and Mr. Wahle made me sand it down and varnish it.

SARA EDGREN FLYNN: Fellow classmates at Peterson thought I was shy. Three words that best describe me: Mom, spontaneous, caring. I think I've become more confident. My favorite teacher was Mr. Wahle. In 7th/8th grade, I had a crush on Tim Chappell, Scott Martin, and Steve Johnson. My favorite memories of Peterson include field trips, patrol, and Lighted School House. In ten years, I see myself still busy with the kids, maybe traveling more, and enjoying more time with family.

EDWIN FUHRMANN: My favorite memories of Peterson include the walk to and from school every day with my friends, working in the library, and singing in the "Peterson Pipers."

STEPHEN GOLD: Fellow classmates at Peterson thought I was the Class Klutz. Three words that best describe me: honest, happy and wise. I think I've become more understanding. Nobody knows I've never had a real job. In 7th/8th grade I had a crush on Kathy Hanson, and in 6th grade, Abby Siegel. My favorite teachers were Mrs. Weinberg and Mr. Wahle. My favorite subject was science. My favorite memories of Peterson include winning the intramural checkers championship, and science classes. In ten years, I see myself as a good father.

KATHY HANSON WAGNER: Fellow classmates at Peterson thought I was wild(?). Three words that best describe me: caring, determined, easy-going. I think I've become more self-confident. In 7th/8th grade, I had a crush on Scott Martin and Terry Rosen. My favorite teachers were Mr. Wahle and Ms. Rosenstein. My favorite subject was science. My favorite memories of Peterson include Mr. Wahle's class, parties at the Matulewicz's house, assemblies, and French class. In ten years I see myself as a grandma!

MARILYN HAWKINSON MALECKI: Fellow classmates at Peterson though I was tough, but cute! Three words that best describe me: friendly, independent, funny. I think I've become more patient. In 7th/8th grade, I had a crush on singer David Cassidy. My favorite teachers were Miss Gillick, and Ms. Rosenstein. My favorite subjects were science (with Mr. Wahle), art, and French. My favorite memories of Peterson include the game Seven Up ("thumbs-up"), snow days, Hot Dog day, the city-wide science fair, patrol girl, Lighted School House, and parties at Donna & Jane Matulewicz' basement. In ten years, I see myself moving west.

TERRY JACOBSON SPINKS: I think I've become more tuned in to the important things in life. Nobody knows I'm a big country music fan. In ten years I see myself older wiser, and poorer (3 kids in college).

CARLA JAMESON FRISCH: Three words that best describe me: mother, wife, friend. I think I've become more able to set priorities. In ten years I see myself having more free time/time for myself.

FILL IN THE BLANKS FROM YOUR MEMORY BANKS

Fellow classmates at Peterson thought I was... Three words that best describe me... I think I've become more... Nobody knows I'm... In 7th/8th grade, I had a crush on... My favorite teacher(s)... My favorite subject(s)... My favorite memories of Peterson include... In ten years, I see myself...

BETSY JOHNSON STEGBAUER: Three words that best describe me: dedicated, hard-working, sentimental. I think I've become more mature. In ten years I see myself enjoying life in Michigan!

DAVE KATTER: In 7th/8th grade, I had a crush on Kathy Hanson (didn't everyone?). My favorite memories of Peterson include row quizzes in Mr. Wahle's class, making fake cameras and stuff with Bill Tong, getting a "U" in math in second grade, and hanging out with Frank Liberatore and Jon Anderson.

LORAINE KOGAN KANE: Fellow classmates at Peterson thought I was fat, ugly, and smart. I think I've become thin, pretty, and smarter. My favorite teacher was Miss Mulvihill (1st grade). My favorite subject was math. My favorite memories of Peterson include doing the cancan in Mrs. Seidman's 5th grade class. In ten years, I see myself hopefully retired and traveling around the world.

MANFRED LEHMANN: Three words that best describe me: tall, bald, handsome. I think I've become more understanding.

FRANK LIBERATORE: Fellow classmates at Peterson thought I was... who knows? (You know, they say the mind is the first thing to go.) Three words that best describe me: a big kid. I think I've become more rounded, as a person (literally and figuratively). Nobody knows I'm a huge professional wrestling fan. In 7th/8th grade I had a crush on one of the brides on the TV show, "Here Come the Brides." My favorite teacher was Mr. Wahle. My favorite subject was science. My favorite memories of Peterson include the kindergarten slide and sandbox, skizball, Mr. Wahle's Row Quiz, and the Watergate hearings (NOT!). In ten years, I see myself a U.S. Supreme Court Justice or a game show host.

BARBARA LIEBMAN MELNICK: Three words that best describe me: loving, patient, a good mom (Oops! That was 6 words - I can't count!). I think I've become more set in my ways.

MARK MICHAEL: Fellow classmates at Peterson thought I was quiet. I think I've become more assertive.

My favorite subject was math. My favorite memories of Peterson include Lighted School House. In ten years, I see myself retired.

Peterson thought I was a bit wild(?). I think I've become more relaxed. In 7th/8th grade, I had a crush on lots of boys. My favorite teacher was Miss Gillick. My favorite memories of Peterson include "boys chase girls" at recess, passing notes in French class, science (and most other) classes, trips to the Hollywood Bowl at lunchtime, lunch at C.V.'s, being one of the first patrol girls, games at "Lighted Schoolhouse" and pizza bread at Sherri's afterwards, having the first "boy-girl" party with Barb Wittert at my house. In ten years, I see myself traveling more (I hope!)

JOHN PETRAKIS: My favorite teachers were Mr. Wahle, Miss Reid, Mr. Kaczmarek, and Mrs. O'Connor. In 7th grade, I had a crush on Kathy Hanson, Sara Edgren, Paula Spector, and Donna Matteson. My favorite memories of Peterson include Mr. Wahle's volleyball games at lunchtime in 7th grade, Miss Reid's kindergarten class, the Hollywood Bowl, hosting Peterson's version of the Johnny Carson Show in Mrs. Rosenstein's 6th grade (Frank Liberatore played Ed McMahon), 16" softball and skizball, the Peterson Pipers, the "flying saucer" pastries from the bakery on Bryn Mawr, and Tong's Tea Garden.

ESTHER RAPOPORT CRAVEN: I think I've become more outgoing. Nobody knows I'm having a hard time filling this out.

TERRY REHFELDT: Fellow classmates at Peterson thought I was... I don't know. My favorite teacher was Mr. Wahle. My favorite subjects were spelling and gym. My favorite memories (and nightmares) of Peterson include: Barb Wittert staring at me (trying to spook me), being a patrol boy for 3 years, a big-shouldered classmate named Manfred Lehmann, Mr. Wahle's Row Quiz (I was in Row 5), and winning a bet worth 1,000 Row Quiz points with Mr. Wahle about the details of a certain novel (maybe the only Row Quiz question I ever got right.)

NEIL ROSENBAUM: Fellow classmates at Peterson

Fellow classmates at Peterson thought I was... Three words that best describe me... I think I've become more... Nobody knows I'm... In 7th/8th grade, I had a crush on... My favorite teacher(s)... My favorite subject(s)... My favorite memories of Peterson include... In ten years, I see myself...

thought I was husky and strong. In 7th/8th grade, I had a crush on Kris Anderson. My favorite teacher was Mr. Andrews. My favorite subject was science. My favorite memories of Peterson include that student teacher who sand to us with a guitar, I believe, during 6th grade in Mrs. Stone's class. In ten years, I see myself retired, consulting, and traveling.

BEN SHAPIRO: Fellow classmates at Peterson thought I was hyper. Three words that best describe me: opinionated, cynical, energized. I think I've become more focused. In 7th/8th grade, I had a crush on Paula Spector, Cheryl Velick, and Dr. Stanek. My favorite class was gym. My favorite memory of Peterson was recess. In ten years I see myself very busy.

PAULA SPECTOR CLAR: Fellow classmates at Peterson thought I was Paula Spector. Three words that best describe me: alive and well. My favorite teachers were Miss Mulvihill, Miss Barezsky, Miss Gillick, and Mr. Kaczmarek. My favorite class was patrol gym, when we played softball on Friday afternoons. My favorite memories of Peterson include having Mr. Kaczmarek put mercurochrome on all my scratches. In ten years, I see myself still happy.

BILL TONG: Fellow classmates at Peterson thought I was a nice guy. Three words that best describe me: organized, patient, creative. I think I've become more accustomed to change. Nobody knows I play the autoharp and electronic keyboards by ear. In 7th grade, I had a crush on Kathy Hanson. In 8th grade, I had a crush on Kris Anderson. My favorite teachers were Mr. Wahle, Mr. Andrews, and Miss Stark. My favorite subjects were science, social studies, and spelling. My favorite memories of Peterson include Mr. Wahle's Row Quiz, building the fastest-running electric motor kit in 7th grade, learning the songs from the musical "1776," drawing science diagrams of the eye, throwing the 16" softball so far in an 8th grade gym test that it hit the boiler house wall (a 150' throw), running the 50 yard dash in 6.7 seconds, being able to do 10 pull-ups in gym, winning the 7th and 8th grade spelling bees, and watching the Watergate hearings at school on TV. In ten years, I see myself ten years wiser. CHERYL VELICK SHAPIRO: Three words that best describe me: fun, sensitive, friendly. I think I've become more wise.

SHARON WEINSTEIN: Fellow classmates at Peterson thought I was "the new kid." Three words that best describe me: content, motivated, shopaholic. No one knows I am a closet Republican (but still a Clinton apologist). I think I've become mellower (maybe a teeny bit). My favorite teacher was Mr. Wahle. My favorite class was: I don't remember... probably English. In 7th/8th grade, I had a crush on... (ask Barbara Wittert Apgar; she seems to remember everything). In ten years, I see myself the widow of an extremely wealthy and very, very old man, who left me the funds to spend my days at Nieman Marcus and the Golden Door Spa.

BARBARA WITTERT APGAR: Fellow classmates at Peterson thought I was friendly, funny, nice. Three words that best describe me: friendly, funny, nice. I think I've become more gutsy and confident (but only a little...). Nobody knows I'm shy. My favorite teachers were Miss Stark, Mrs. Rosenstein, Mrs. Stone, and Mr. Hastings. In 7th grade, I had a crush on Pete Sekalias. In 8th grade, I had a crush on high school guys. My favorite memories of Peterson include recess ("boys chase the girls," and "who stole the cookie from the cookie jar" with Marla Udany et al), Student Council, and lunches with Rena Zaid and Mr. Hastings. In ten years, I see myself famous with the famous.

DEBBIE ZELINSKY: Fellow classmates at Peterson thought I was a smart nerd. Three words that best describe me: sincere, creative, fun. I think I've become more open with communication. Nobody knows I rarely wear matching socks. In 7th/8th grade, I had a crush on Frank Liberatore and Mark Friedlander. My favorite teacher was Mr. Wahle. My favorite subjects were French and music. My favorite memories of Peterson include hot dog lunch days, trips to the Museum of Science and Industry, singing in the chorus, playing pinners, playing bingo in French, being lucky enough to live close to school, although not as close as Becky Zidoff. In ten years, I see myself as happily married with a new family, waiting to tease my fellow classmates on how they are all headed toward 50 while I'm

Personal Communication

To Barb Wittert Apgar, Debbie Zelinsky, Frank Liberatore, Dave Blatt, Neil Rosenbaum, Bob Perlin, Ed Fuhrmann, Kathy Hanson Wagner and Donna Murphy Wittert: Thanks for all your support and your on-line assistance with tips, leads, memories, and write-ups for this book. This book and this reunion would not have been possible if not for all the information passed along through those hundreds of e-mail messages. To everyone in the Peterson Class of '73: In your hearts, keep the memory alive of Peterson - that special place and time that we all shared so long ago.

-Bill Tong

As I embark on my mid-life career change from Advertising to Education, I hope I can have half the impact on my students that Mr. Wahle had on me. Mr. Wahle, wherever you are - thanks!!! Finally, to all the other members of Mr. Wahle's Room 205 Row One Team, WE STILL RULE!

-Bob Perlin

Thanks to Miss Luby and Mrs. Shapiro for all those multiplication tables; I can still calculate tips and tax in my head. NO thanks to Mr. Crane, who made me sing a solo (calypso music, no less) at our graduation.

-Frank Liberatore

Tim Chappell, where are you? Sigi Mueller, where are you?

-Neil Rosenbaum

To Frank Liberatore: Old buddy, I'm glad we found each other after almost twenty years. It's hard to believe it's been a year and a half since we first entertained the notion of organizing a Peterson reunion. Thanks for all your help and ideas in organizing this reunion, and stay in touch.

-Bill Tong

To Dave Katter: Glad to hear from you after all these years. You still remember those paper cameras, too! I remember the excellent painting and art work that you did at Peterson. Sorry you won't be joining us at the reunion. Keep in touch.

-Bill Tong

To Mr. Wahle and Mr. Andrews: Thanks for being the great teachers that you were. You were both great influences on my academic career, and you were part of the reason I majored in science in college, eventually getting a masters degree in earth science. -Bill Tong

Mr. Wahle: I will never forget the inner workings of the heart or eye or ear because of your class. All three are used now in my work.

-Debbie Zelinsky

Mademoiselle Genitis: Je connais les numeros tres bien, a cause de vous. Merci pour l'aide dans notre classe.

-Debbie Zelinsky

To Miss Stark: Despite the 33 years that had passed(!), I still have wonderful and vivid memories of you and my first grade experience. Thank you for teaching me the enjoyment of learning.

-Barb Wittert Apgar

To Mr. Hastings: Thank you for sharing all those lunch hours with me and Rena, and for treating us as adults (rather than the 11 ½ year old girls that we were).

-Barb Wittert Apgar

To Bill Tong, Neil Rosenbaum, Frank Liberatore (a.k.a. "Frangucci Sarucci"): I still think about you guys on occasion; hope you're doing well.

-John Petrakis

To Kathy Hanson: Thanks for my first kiss(es) in 1st and 2nd grade, but you really cut into my allowance when you started charging me a nickel per kiss in 3rd grade.

-John Petrakis

- 24. The Peterson School sweatshirts sold during the late 1960s were maroon with gold lettering (the school colors).
- 25. As a 4th grade art project, Dave Katter and Bill Tong created a number of mock paper box cameras patterned after the Kodak Instamatic camera. The lens and detailing were drawn with magic markers, and the shutter was a small strip of paper folded into an accordion. Fellow classmates then began requesting these cameras, so Dave and Bill produced a large number of them.
- 26. The Peterson School Color Guard, sponsored by physical education teacher Eugene Kaczmarek ("Mr. Kaz"), were composed of a number of patrol boys, and they performed the presentation of the flags on stage and led the pledge of allegiance to the U.S. flag during musical assemblies.
- 27. Mr. Barbakoff was a private music teacher who had many Peterson students as his pupils; he arranged occasional concerts at Peterson as the band leader.

- 28. Kindergarten teacher Miss Reid was well-known for her piano playing skill, and played much of the musical accompaniment at school assemblies.
- 29. During the spring of 1972, 8th grader Steve Newman did a science fair project on freeze-drying that was presented in the semi-finals in the gym. The dry ice that was created as a by-product got mixed with water in the janitors sink, and produced huge amounts of cold fog in the hallways.
- 30. Scott Whitcup's father threw him a big party for his 6th birthday, which included lunch at McDonald's and lots of rides for his classmate guests at Kiddieland.
- 31. The 7th grade Room 205 newsletter was called "Room 205 Talks" which later became a bulletin board called "The Communicator." William Low was the editor.
- 32. Mr. Mayer Dudovitz, a chemistry teacher at Von Steuben High School, began teaching an early morning class in Anthropology during the fall of 1972, offered for high school credit to selected 8th graders from Peterson, Solomon, Sauganash, and Von Steuben Upper Grade Center.
- 33. During our school years at Peterson, the cut-off date for school enrollment was December 1st; if you reached your 5th birthday on or after December 1st, you were made part of the older group of students, and you were assigned to attend the morning session of kindergarten during the first semester. During the second semester, the two groups switched schedules. The youngest students were those with November birthdays.
- 34. Classes began at 9:00 AM in the morning. Recess was usually at 10:20. Classes usually finished at 3:15 PM. Class periods were 40 minutes long, with a 5 minute allowance to go between classrooms.
- 35. Back in the 1960's, there were two sets of swings along the fence paralleling Bryn Avenue, and a set of toddler swings along Kimball Avenue. There were two merry-go-rounds along Bryn Mawr Avenue. There was a slide at the corner of Christiana and Bryn Mawr, a slide at the corner of Kimball and Bryn Mawr, and a toboggan slide

along Kimball Avenue behind the baseball backstop. There was a set of monkey bars next to the toddler swings along Kimball, a set of parallel bars along Kimball, and another set of parallel bars along Christiana. Next to each set of parallel bars, there were also the "hi-flyers" - a set of rope ladders that swiveled around a tall metal pole. Next to each set of swings along Bryn Mawr were the see-saws (which were referred to as "teetertotters").

Bryn Mawr Avenue History Questions

Bryn Mawr Avenue forms the northern boundary of the Peterson School property. In Chicago, a major business thoroughfare usually served by a CTA bus line is usually found every four blocks or so; on the north side, there is Devon (6400 N.), Peterson (6000 N.) and Foster (5200 N.). But Bryn Mawr Avenue (5600 N.) doesn't fit the pattern - it looks more like a slice of small-town America than a typical business street. The street is truncated on the east by Rosehill Cemetery at Western Avenue, and become a one-way street west of Pulaski. Between Kedzie and Bernard, a great diversity of mom-and-pop stores on Bryn Mawr once operated. Here are a series of historical trivia questions that recall some of the former shops and stores that once existed during our Peterson years:

- B1. What was the name of the neighborhood barber whose barber shop was once located on Kimball just north of Bryn Mawr? (SUBMITTED BY BILL TONG)
- B2. What were the names of the two college book stores formerly located on Bryn Mawr where Peterson students could also buy school supplies?

 (SUBMITTED BY BILL TONG & JOHN PETRAKIS)
- B3. What was the name of the Chinese restaurant on Bryn Mawr?
- B4. During the 1960s, what was the name of the pizzeria and roast chicken restaurant on Bryn Mawr? (Submitted by Neil Rosenbaum)
- B5. What was the name of the corner snack shop at Kimball and Bryn Mawr? (SUBMITTED BY BILL TONG)
- B6. What was the name of the former restaurant on Bryn Mawr near the corner of Spaulding?
 (SUBMITTED BY NEIL ROSENBAUM)
- B7. What was the name of the toy store on Bryn Mawr, which closed in 1968? (SUBMITTED BY BILL TONG)
- B8. What was the name of the card and gift shop on Bryn Mawr Avenue? (SUBMITTED BY BILL TONG)
- B9. During the 1960's, what were the names of the two neighborhood pharmacies on Bryn Mawr, and where were they formerly located? (SUBMITTED BY BILL TONG)
- B10. What was the name of the former Schwinn bicycle

- dealership on Bryn Mawr and which classmate's father and uncle owned it? (SUBMITTED BY BILL TONG)
- B11. Who owned the former Chinese hand laundry once located on Kimball, just north of Bryn Mawr?

 Hint: One of the owner's sons was our former classmate. (SUBMITTED BY BILL TONG)
- B12. For a very brief time (less than a year) in 1972, there was a small bakery that was located between the Seven Eleven and Les-On Drug Store on Kimball at Bryn Mawr. What was the name of this bakery? (Submitted by Bill Tong)
- B13. What were the names of the owners of the Hollywood Bowl? (Submitted by Neil Rosenbaum)
- B14. Where on Bryn Mawr Avenue was a Jewel Food store once located? (SUBMITTED BY BILL TONG)
- B15. What was the local pastry known as the "flying saucer" and where was the bakery located?

 (SUBMITTED BY KATHY HANSON WAGNER)
- B16. What was the name of the dress shop on Bryn Mawr, and which Peterson classmate was the daughter of the owners? (Submitted by Kathy Hanson Wagner)
- B17. Which drug store opened next door to the Seven Eleven at Bryn Mawr and Kimball? (SUBMITTED BY KATHY HANSON WAGNER)

Thank you for taking this little journey back in time.

Answers to Bryn Mawr Avenue History Questions

- B1. Irv Olsen, of Norwegian-American descent, was a friendly and popular barber and a neighborhood institution who gave haircuts to three generations of boys and men. His barber shop on Kimball Avenue was in operation for nearly 40 years. Among Mr. Olsen's many customers were countless boys and young men who attended Peterson School. As a camera buff, he photographed the kids as they got their haircuts, and displayed a photo montage in his shop window. Mr. Olsen passed away in 1984 at the age of 74, and the former barber shop is now the site of Top 10 Video.
- B2. Beck's Book Store and Follett's Book Store on Bryn Mawr Avenue primarily served students from Northeastern Illinois University, but Peterson students could also buy school supplies there. In 1973, Follett's closed its Bryn Mawr location and moved into the Northeastern Campus. In 1988, Beck's took over Follett's location inside Northeastern, and closed its Bryn Mawr Avenue store.
- B3. Tong's Tea Garden, founded by Bill Tong's grandfather, was operated by the Tong family between 1954 and 1984. The restaurant is now named Hunan Wok and is operated under lease; the property is still owned by Jerry Tong, Bill's father.
- B4. Sherry's Pizza, was owned and operated by the Friedman family.
- B5. CV's Snack Shop; the original owner, whose intials were "C.V.," lived in Maywood and drove to Chicago early each morning to open the diner at 6 AM.
- B6. Martin's Restaurant was located on the northeast corner of Bryn Mawr at Spaulding.
- B7. Hollywood Toys & Hobbies, which sold everything from Lego to chemistry sets to model airplanes, also was a notary public. After going out of business in 1968, the store was later converted into an art gallery owned by Northeastern Illinois University.
- B8. Hollywood Card Shop, which closed during the early 1990s.
- B9. Plotkin's Pharmacy was located at the northwest corner of Bryn Mawr and Christiana. Sandler's

- Pharmacy was located at the southwest corner of Bryn Mawr and Spaulding. The former Plotkin's site is now a violin academy, and what was once Sandler's is now the Hollywood Bar & Grill.
- B10. Lex Bike Shop was operated by the father and uncle of classmate Marty Karbin.
- B11. The family of Jimmy Dong operated the Chinese hand laundry once located on Kimball Avenue; it closed circa 1971.
- B12. The little bakery was known as the Pie Pantry, which closed in 1972.
- B13. Helen and Joe were the proprietors of the Hollywood Bowl, which sold hot sandwiches, snacks, candy, and school supplies. The Hollywood Bowl closed circa 1970.
- B14. On the north side of Bryn Mawr near Christiana was the local neighborhood Jewel Foods, which operated until circa 1965. The supermarket was then sold and operated as a part of the Certified Foods chain under the new name Bryn Mawr Food Mart.
- B15. The "flying saucer" pastry was made from yellow cake with chocolate frosting, produced by the bakery once located on the northeast corner of Bryn Mawr and Christiana. The building was razed during the 1980's to make room for a supermarket parking lot.
- B16. Bonita Sadowsky's parents owned the ladies' dress shop called "Bon-Shar" once located on the south side of Bryn Mawr, between Christiana and Spaulding.
- B17. Les-On Drugs opened during the early 1970's, located next door to the Seven Eleven on the northwest corner of Bryn Mawr and Kimball. It is now the site of a TCF Bank branch location.

Answers to "Guess the Nickname"

- 1. "Muggy" = Mark Michael, a nickname coined by Bill Wittert.
- 2. "Ziggy" = Sigfried Mueller, although he preferred to use "Sigi"
- 3. "Q.Q." = John Quinlan
- 4. "Shrub" = Jay Shub (self-named), referring to his curly hair
- 5. "Subpena" = Ben Shapiro (according to Neil Rosenbaum)
- 6. "Moleman" = Neil Rosenbaum, a name that was first coined by his former camp counselor
- 7. "Sane" = John Pittas (self-named), who once explained to someone who asked, "Why are you called 'Sane'?" he replied, "Because I'm not."
- 8. "Foghorn" = Jay Shub, another nickname that he used because he had the habit of imitating the sound of a foghorn to get attention.
- 9. "Meme" = Marilyn Hawkinson (self-named), who now spells her nickname "Mimi."

Answers to Classroom & Teachers Match-Up:

- 1. Room 106 (K) = Miss Reid
- 2. Room 110 (K) = Miss Mulvihill
- 3. Room 101 (1st) = Miss Mulvihill
- 4. Room 112 (1st) = Miss Stark
- 5. Room 102 (2nd) = Miss Kipnis
- 6. Room 103 (3rd) = Miss Roin
- 7. Room 116 (3rd) = Miss Luby
- 8. Room 109 (4th) = Miss Gillick
- 9. Room 115 (4th) = Mrs. Shapiro
- 10. Room 204 (5th) = Mrs. Seidman
- 11. Room 211 (5th) = Miss Barezsky
- 12. Room 201 (6th) = Miss Rosenstein
- 13. Room 209 (6th) = Miss Geib
- 14. Room 205 (7th) = Mr. Wahle
- 15. Room 206 (7th) = Mrs. Stone
- 16. Room 207 (7th) = Mr. Hastings
- 17. Room 208 (8th) = Mr. Andrews
- 18. Room 210 (8th) = Mrs. Vidor

Memories of Mr. Wahle's Row Quiz

Mr. Donald Wahle, a long-time 7th grade and science teacher, and later Assistant Principal at Peterson School, created his famous Row Quiz to inspire his students with a spirit of friendly academic competition. The Row Quiz was a remarkably effective teaching tool that encouraged class participation and team building. This is my recollection of the rules and workings of his famous Row Quiz...

The Row Quiz was a weekly competition for points between different teams of students, each assigned by row. A running point total for each row team was posted in chalk on the blackboard. (Students were remarkably honest during our school days - no one to my recollection ever tried to change or post a phony point total on the blackboard.) At any given moment during a class lesson, Mr. Wahle would announce a question and offer a number of points to the row of the person who answered it correctly. Mr. Wahle's favorite time for giving row quiz questions was during science class.

Mr. Wahle taught spelling in a unique way that was tied to the Row Quiz. Each week, he held a classroom spelling bee. The winner would be excused from taking that week's spelling test, and would be given the opportunity to recite the words during the test. Mr. Wahle's weekly spelling tests required us to memorize 100 words, each broken down into syllables! One of the incentives for winning the weekly row quiz was to take a much shorter 20-word spelling test.

During 7th grade, the Row One Team consisting of Frank Liberatore, Bill Tong, Brian Kaplan, John Petrakis, Robert Perlin, and William Low dominated the Row Quiz competition to such an extent that Mr. Wahle later broke up the row by reassigning Bill Tong and John Petrakis to other rows. The Row Quiz was also used by Mr. Wahle to discipline students by deducting points from their row team total. Certain students who protested too vigorously, or noisily raised their hands attempting to answer a row quiz question were given "points off for over-reacting" and the loss was taken from their row.

Thanks, Mr. Wahle, for your inspiration.

-Bill Tong

Science Deluxe

I don't know how many of the Class of '73 went into medicine, but Mr. Wahle and Mr. Andrews sure gave us a head start. Mr. Wahle had us draw a diagram of the human heart, memorize all the parts, and write an essay on how the blood flowed from one part of the heart to another. Similarly, Mr. Andrews had us draw, label, and explain a diagram of the human eye.

-Bill Tong

Boiler Room Tour

The facilities tour we once took through the basement, boiler room, etc., was pretty neat from a grade-schooler's perspective. If I remember correctly, several feet had to be taken off of the top of the chimney while we were at school; something about the bricks or the concrete holding them together coming apart.

-Edwin Fuhrmann

The Old Playground Equipment

One of the things that always "hit" me the most on post-graduate visits was the change in the playground equipment. (I left the area after graduating high school; the impact of the changes was probably much less noticeable to those of you who stayed around.) I remember a large wooden structure that was used during the winter as a mini-toboggan run (no toboggan required), "break-your-neck-if-you-let-it" metal merry-go-round, and one or two pieces we called "hi-flyers" which were a large metal post in the center, a metal wheel on the top, and 3 equally-spaced rope-ladder kind of rigs which hung down from the wheel. One could get a running start, hang on to the ladder, and make several revolutions of the pole before kicking a few times again to re-build momentum. Oh, and nice solid "monkey bars" and jungle-gym. Kid-safe? Yeah... right!

-Edwin Fuhrmann

Memories of Gym Class

I didn't care much for gym, except that I always wanted to climb up those tall wooden contraptions near the walls that incorporated some kind of retractable ladder. Dodge-ball was the activity I enjoyed the most, "Skiz" I think we called it. We could always count on Terry Rosen to head up a side, calling out "Get the palsies first!". Way to go, Terry...

-Edwin Fuhrmànn

There were 40 of them per classroom. We were always seated in alphabetized fashion. There were 41 students in the class one part of one year. Leonard Zolno was in the other class. Having a name at the end of the alphabet, I was stuck sitting in a 41st seat next to the teacher.

-Debbie Zelinsky

Mr. Sports Authority

Jay Shub knew EVERYTHING about EVERY sport imaginable and at that time, I didn't. I remember hearing a sports announcer on TV saying that a hockey score was 96-72 (or something like that). The announcer had meant basketball, but had said hockey. Me, being as literal as I was, argued with Jay over that. He kept telling me that it couldn't have been hockey and I kept telling him that the man said hockey.

-Debbie Zelinsky

Summer School

I remember Jon Anderson going to summer school when we combined with other schools, and drawing a face on Joanne Scharf's elbow mole.

-Debbie Zelinsky

Chauffeur

I remember school principal Dr. Stanek driving me home one day when I had an allergic reaction.

-Debbie Zelinsky

Valentines & Notes

During my younger years at Peterson I have strong memories of Valentine's Days and writing a valentine card for each member of the class. I also remember the fun of "delivering" the valentines during a class party and going home and reading them all. During my older years at Peterson I remember passing and receiving lots and lots and lots of notes.

-Barb Wittert Apgar

Finger Traps

I remember having someone show me one of those finger catcher traps and not telling me how to get out of it. My fingers were stuck in it when I was called on to go to the board.

-Debbie Zelinsky

Crowded Classrooms

We had the old antique desks bolted to the floor.

8th Grade Classroom Pranks De Plane! De Plane!

During 8th grade, Ricky Yong designed a paper airplane that acted like a boomerang; it flew in a small radius circle and returned to the thrower. When he launched his airplane several times behind Ms. Spranger's back while she was writing on the blackboard, the class almost died laughing.

-Bill Tong

Pop Goes The Easel

One of the classroom pranksters' delights were those things called "Snap Pops" - fingernail-sized wads of tissue paper containing metallic crystals that popped loudly when thrown against a hard object. People who brought these to class would throw these at the blackboard while the teacher was writing with his or her back turned to the class.

-Bill Tong

Rubber Band Wars

Sometime during 8th grade, a number of classmates got into a rubber band war. Terry Rehfeldt brought a rubber band gun, which was a pistol-like device with notches for loading lots of rubber bands. To defend myself against other "contestants," I used a wooden ruler loaded up with rubber bands. A bunch of us ended up writing an essay on how rubber bands are made, as punishment.

-Bill Tong

Watergate Was Tough To Sit Through

During 8th grade, I remember having to watch the Watergate hearings, staring at the television for hours, sitting two to a seat, because both 8th grade classes were sharing a single TV in one room. I was paired with someone who took up more than their half and I kept sliding off.

-Debbie Zelinsky

What Watergate?

During 8th grade, the Watergate hearings were televised during the day, and the students were assigned to watch the TV coverage. Because there weren't enough televisions to go around, students from both 8th grade classes (Room 208 and 210) combined into one room to watch a single black-and-white TV, but a number of students used to sneak back into the empty classroom and play checkers, chess, or Battleship.

-Bill Tong

8th Grade Science Fair

To fulfill the science fair requirement, I usually put together some kind of gadget. For the 8th grade science fair, I made an electric arc furnace, which used the carbon rods from dead "D" size batteries as electrodes. When operated, the small gap between the two carbon rods got white-hot - hot enough to melt copper pennies and aluminum foil. I wore dark sunglasses to protect against the glare. Terry Rehfeldt collected a lot of dead batteries and extracted the carbon rods for me. To my surprise, my project made it to the semi-finals in the gym. My arc furnace drew so much electricity that many projects set up near me wouldn't operate properly. To regulate the electric current, I used a salt-water rheostat, which was just a glass orange juice jar with two strips of metal connected to wires to complete the circuit. The problem was, the salt-water would heat up so fast that it would start boiling, so I needed to change the water very often. During the science fair, Terri Goldsberry and Diane Juglal kept running to the janitor's sink to get more cold water to replace the hot salt water.

-Bill Tong

Good Reading

I remember being in the "advanced" reading program in 7th or 8th grade, being "rewarded" with French lessons, protesting by intentionally doing poorly, and being "busted" back to the regular class. The other episode where being an avid reader with a good vocabulary bit me was when I was assigned to some kind of "reading circle", where I was the only boy. I didn't know then, of course, how good I had it.

I remember from somewhere in the 6th-8th grade time frame that Peterson boasted the 2nd-highest elementary school reading/comprehension scores in the Chicago Public School system. I always boasted about that, and credited my reading ability and vocabulary to a good start at Peterson.

-Edwin Furhmann

Memories of 7th Grade (1971-72) 7th Grade Intramurals

During the 1971-72 school year, there were three (actually two and a half) 7th grade classes: Mr. Wahle (Room 205), Mrs. Stone (Room 206), and Mr. Hastings (Room 207), which was a combined 6th/7th grade. The teachers created a series of intramural competitions, including a spelling bee, checkers tournament, chess tournament, volleyball tournament, and softball tournament. Besides participating in the spelling bee, I remember

playing on the Room 205 softball team.

-Bill Tong

Spelling Bee Stories

I remember that during the intramural spelling bee, everyone was getting eliminated by the word "wholesome." When it was finally my turn, I was sure I had it, but I blurted out "H-O-L-S-U-M" just like the bread commercial spelled it, so I was out of the contest.

-Frank Liberatore

The 7th grade intramural spelling bee held in the auditorium had eliminated everyone but me with the word "annihilate" - but, in the heat of the moment, I forgot to say the "h" even though I had spelled it mentally to myself just a moment earlier. We finished the spelling bee in a playoff between the final contestants the next day in Ms. Stone's classroom, but I don't recall the last word I spelled correctly to win the contest for Room 205.

-Bill Tong

1776 - the Musical

Mrs. Stone taught the words and music from the Broadway musical "1776" to most of the 7th grade, using phonograph records and song sheets. Some of the musical phrases were used for particular classmates, such as the number sung by the Continental Congress to John Adams; "Sit Down, John!" was invoked whenever John Petrakis "over-reacted." Mrs. Stone's home room class (Room 206) even acted out the musical numbers at the assembly hall while lip-synching to the phonograph record. Mrs. Stone later organized a class field trip to the Shubert Theater to see the Chicago production of "1776."

-Bill Tong

Mr. Wahle's 7th Grade

Mr. Wahle was a real inspiration to me and I will always remember his unorthodox teaching methods. Who can forget his stories about spontaneous combustion or how people were mysteriously and instantaneously transported from one place on the earth to another? These stories will always stick with me and are as interesting as anything in the "Weekly World News"... Does anyone remembers Mr. Wahle's "magneto" machine? He would have the entire class hold hands, then he would crank this thing (a generator) and we would all get an electric shock. Imagine what would happen if a teacher did that today. But, to this day I still remember that lesson in electrical conductivity.

-Robert Perlin

I remember standing around with all the other 7th grade students, holding hands while Mr. Wahle cranked up the generator and we all took voltage through our hearts. I remember it as if it were burned in to my brain.

-Edwin Furhmann

Etruscan Tubes Are Blocked

During 7th grade, Mr. Wahle taught us about the forerunners of the Roman civilization, the Etruscans. About that time, Mr. Wahle was also teaching us in science about the inner workings of the human ear, which included the Eustachian tube. I remember Sharon Weinstein kept getting Estruscan mixed up with Eustachian - she kept referring to the Roman forerunners as Eustachians.

-Bill Tong

I do recall very clearly a Dr. Davis coming in seventh grade and giving a small group of us some very basic science/medical training. Evening though I did not end up going into medicine, at that time I was sure I'd be a doctor and loved his sessions. I also think it was a truly wonderful thing that he took time out to interest a bunch of 7th graders in science.

I still cannot say Eustrascin (or spell it!)

-Sharon Weinstein

Middle Name Game

One time, Mr. Wahle looked over his class roster and asked his students if they could guess the middle names of different classmates. I knew immediately that no one would be able to guess mine, because it's actually my Chinese name, which Mr. Wahle wasn't able to pronounce correctly.

-William Kiejan Tong

Fix That Desk!

When I knew I was going to transfer out of Peterson near the end of 7th grade, I thought I'd leave my mark by carving my name on one of the old wooden desks in Room 205. Mr. Wahle found out and made me stay in class during many recess periods to sand down the desk completely and re-varnish it.

-Steve Burdeen

Where's The Melody?

I remember the musical numbers that the Room 205 class rehearsed for the assemblies. Mr. Wahle had the habit of choosing quaint, rather outdated music from an earlier generation, such as "Little Old Sod Shanty" which was not

a big hit with his home room class, to say the least. One number that we practiced a lot was a tune called "It's Autumn Time Again." The boys were supposed to sing the melody, and the girls were supposed to sing the higher harmony part. But, the boys kept singing the girls' part, note for note, but one octave lower. I seemed to be the only one to notice what we were doing wrong, but I couldn't get Mr. Wahle to understand that.

-Bill Tong

High Stakes Row Quiz Questions ... And For 2,000 Points

I remember once missing a 2,000 point Row Quiz question which was to recite the formula for converting centigrade temperatures to Fahrenheit. Ironically, after my wrong answer, someone pointed out that the correct formula was posted on the door between Mr. Wahle's room and the next room, within plain sight.

-Frank Liberatore

I'll Bet You 1,000 Points...

I remember that my row team (Row 5) rarely came in first place. But I also remember arguing with Mr. Wahle over the details of a novel, and Mr. Wahle bet about 1,000 Row Quiz points on the answer. When he looked it up, he admitted I was right, and I had won the bet. It's the only time I can remember getting a Row Quiz question right.

-Terry Rehfeldt

Memories of 6th Grade (1970-71)

Mrs. Rosenstein's class was set up with moveable desks in groups of four. I remember sitting kitty-corner from Kathy Hanson and both of us immediately smelling the freshly mimeographed hand-outs.

-Barb Wittert Apgar

Starting in 6th grade, students began to switch teachers for certain subjects, and the home room teacher didn't teach everything. I was in Miss Geib's home room class (Room 209), and we had Mrs. Rosenstein (Room 201) for art. For music, Miss Geib seemed to rely upon several of her students (Kris Anderson, Meme Hawkinson, Betsy Johnson and others) who had piano-playing and musical talent, and we sang material taught by them for the assemblies. Miss Geib once tried to get me to write and direct a stage play based upon an ancient Chinese legend about a general who defeats an enemy army by scaring them with an airborne soldier held aloft by a kite. This project gave me nightmares, but I was off the hook after Miss Geib was absent for the rest of the school year. The long-term

substitute, Mr. Garvin, was a good teacher, but the students were really rowdy during that second half of the year, including a number of the normally top notch students.

-Bill Tong

I remember during Mrs. Rosenstein's art class, we usually had only one class period (40 minutes) to finish a project. Whenever we used tempera paints, we sometimes had to mix our own colors in a little mixing tin - a small, flat tray with round indentations. The toughest color to mix was "flesh-tone" because you had to remember the formula (red+blue+yellow+white), and constantly stir and test the color. I remember how hard it was to work with tempera paint; the paint would often dry out, the consistency between different paint bottles was uneven, and the colors would bleed into another. One time, I had mixed too small a batch of "flesh-tone" paint, and I had to mix another batch, which, of course, didn't match in color, so I painted a picture of people with "uneven" tans!

-Bill Tong

Memories of 5th Grade (1969-70)

The Peterson School intercom system had a P.A. speaker with a built-in microphone mounted in nearly every classroom. During its time, the system was fairly advanced (Von Steuben High School didn't have such a system). We didn't yet know the concept of "Big Brother," but school authorities could listen in on a classroom at any time. If any particular student was paged on the intercom, the rest of the class would immediately assume it was for disciplinary reasons. On the first day of 5th grade, it was also my sister's first day of kindergarten, and she was having a rough time adjusting, so I got paged that day from the principal's office to go and calm her down. I left the classroom to a chorus of "Ooh... You're in trouble!"

Mrs. Seidman used to complain that she would gain several pounds just from eating a few cookies.

What used to be quaintly called "the birds and the bees" was taught during 5th grade, because I remember Mrs. Seidman's matter-of-fact explanations.

During 5th grade, we saw a live production of a childrens' play called "The Thwarted Bolingrew" that took place in the assembly hall. I don't remember much about the plot, but I do remember the villain threatening to "smash the eggs," a key part of the story. At one point during the play, the villain made a surprise entrance through the center aisle from the back of the hall, causing a startled Mrs. Seidman to scream.

-Bill Tong

Memories of 4th Grade (1968-69)

On the last day of the school year, Mrs. Shapiro would "welcome" her incoming 4th grade students with a multiplication test, immediately after they had changed classes from third to fourth grade.

-Frank Liberatore

I remember doing multiplication "table papers" all summer long prior to entering Mrs. Shapiro's fourth grade class. I remember barely squeaking by "Current Events" in Mrs. Shapiro's class, while other classmates would memorize articles from the newspaper that went on for five minutes or more. Carla Jameson once reported on Paul McCartney's alleged death. It was the only current event in which I was ever interested!

-Barb Wittert Apgar

Most of the classrooms during our years at Peterson had the antique pedestal desks bolted to the floor, some of which still had the pencil groove and the old ink well covers intact. But during 4th grade, Miss Gillick's class in Room 109 had movable desks; students experienced a freedom of movement for the first time, and pandemonium reigned because the positions of desks shifted daily, as different cliques of people attempted to huddle their desks together and spitball wars erupted. Miss Gillick used to reserve a student desk positioned next to hers at the at the front of the room for the class goof-off, where she could keep an eye on him. That "hot seat" was the closest thing we had to a dunce's chair.

-Bill Tong

Despite having classrooms with nearly 40 students, during gym, we often didn't have enough students to play all 9 field positions during softball, because Mr. Kaczmarek usually had two games going on simultaneously, which would have required 36 players for 4 teams. If there was a shortage of fielders, each batter had to declare left or right field during an at bat, so that the fielding team could adjust their defense. If you hit to the wrong field, you were automatically out. I hated that rule, and for good reason. During 4th grade, I "called" left field, but hit a long fly ball 20 feet past the center fielder into right field; measured from the "green" backstop located by Christiana Avenue, the ball landed on a fly down by the swings at Bryn Mawr and Christiana. All I got for that was a long out.

-Bill Tong

Memories of 3rd Grade (1967-68)

Miss Luby was well-known as a strict disciplinarian. We didn't know it then, but she was literally "from the old school," having taught at Peterson since 1933. One time during 3rd grade, she was furious with Hillary Goldstein for having a disorganized desk and notebook. She assigned us to fix Hillary's notebook and the contents of her desk out in the hallway. We spent over an hour making dividers, and patching up torn holes in notebook papers. But about a week after the incident, poor Hillary's notebook and desk were messy again.

-Frank Liberatore & Bill Tong

I remember Miss Luby's math tests; they were a horror, it seemed like she raced through the questions, which were all multiplication table questions.

-Frank Liberatore

We learned cursive handwriting during third grade (teachers called it "penmanship"); I remember how rigid and inflexible some of the teachers were. Some teachers insisted that we hold the pen at certain angle, pointed at your shoulder, using so many fingers, etc. I hated the way they taught us to write the capital "F."

-Bill Tong

Penmanship was taught using the Palmer Method. I remember being thrilled with being able to use a ballpoint pen after those leaky cartridge pens!

-Barb Wittert Apgar

One time Miss Luby humiliated me in front of her class by saying I had a messy, disorganized notebook. I was very upset when I got home, but my dad was even more upset - he went to school the next day, and in the hallway, he verbally pinned Miss Luby's ears to the wall, accusing her of singling me out, among other things. Miss Luby was nicer to me for the rest of the school year. But thanks to Miss Luby, I won't ever feel comfortable again having any kind of disorganized notebooks!

-Bill Tong

I remember having to stay after school in Miss Luby's room because Terry Rosen "tattled" on me for passing him a note. I also remember my mom going to school in my defense and telling me that she was going to rip off Miss Luby's wig for keeping me after school.

-Barb Wittert Apgar

During school assemblies, Dr. Setze, the principal, had the habit of pacing up and down the center aisle. But

Miss Luby had ordered her students to face front at all times, at all costs, and we were never able to see him at all!

-Barb Wittert Appar

Memories of 2nd Grade (1966-67)

On the first day of second grade, I overheard Miss Stark (my former first grade teacher), who was standing on top of the steps as we were lining up to start school, say: "These are all my children," referring to the students who had her during the previous school year.

-Bill Tong

Miss Kipnis didn't believe me when I told her in 2nd grade that I was able to pick out on the piano the tune the class had been practicing, called "Halloween Night." I had figured out how to play it on my sister's toy piano at home.

-Bill Tong

During 2nd grade, some older students did a "puppet" show in our classroom. Their "characters" were simply drawn on their hands, and the theater was a decorated cardboard box. This inspired me to do a similar type of puppet theater, but with papier mache puppets, and more elaborate sets. I decided to use the "Three Little Pigs" story, which everyone knew. I recruited my buddies Frank Liberatore and Dave Katter so we could do all the voices. Dave was the best artist, so he painted the backgrounds of the cardboard box stage. We decided to make working models of the three houses that the three little pigs built, but we took some "artistic liberties." Because we didn't know where to get straw, we simply glued plastic drinking straws onto index card panels. We designed this "straw' house to be collapsible by pulling a string. The wooden house built by the second little pig was made in similar fashion, using popsicle sticks. The brick house made by the third pig, which resisted the Big Bad Wolf's "hurricane breath" was, of course, made out of Lego. Later on, the three of us did another puppet show, the "Three Billy Goats Gruff." We made the goats and the troll out of papier mache, each animated by an attached coat hanger wire.

-Bill Tong

Memories of 1st Grade (1965-66)

When we were first learning to write, we used those big sheets of manila-colored paper with the thick green guidelines which made you write letters about 1 inch tall, using an oversized kid's pencil.

Miss Stark's class was a mixture of first and second

graders, and some of the second graders made sure the first graders knew they were boss. I used to miss a lot of school days from being sick, and second grader Rita Stenfield once taunted me, "You're gonna get in trouble, Tong - you're out sick so much."

-Bill Tong

Miss Stark was teaching us how to "borrow" in subtraction and I had no idea what I was borrowing or from what or whom. Ones, tens, hundreds - I was clueless. I remember learning syllables in Miss Stark's 1st/2nd grade class. We would say different class members' names and clap our hands for each syllable. I remember the melodic flow of this particular combination of 2nd graders' names, plus one 4-syllable river. "Lin-da! Ben-ja-min! Mississippi, Ross!"

-Barb Wittert Apgar

We used to use the S.R.A. Weekly Readers, a set of color-coded, standardized reading comprehension exercises, printed on card stock. Aqua was the first color. There was something of a competition between classmates to see who could progress the fastest from one color level to another. You couldn't rush through them, or you would make too many mistakes and get a low score.

-Bill Tong & Barb Wittert Apgar

Memories of Kindergarten (1964-65)

Room 106 (Miss Reid's classroom) had a shiny hardwood floor, with a big painted circle in the center of the room, and a hardwood slide located near the windows. There were a series of small tables that each seated about half a dozen kids, but no individual desks. When it was time for drawing and coloring, oversized crayons were distributed to the students from big tin trays. Miss Reid incorporated music in many of our lessons and activities, by singing and playing the piano. One of my favorite games was a role playing game where the princesses would be rescued by the princes, all set to music by Miss Reid. My favorite "princess" was a classmate named Marcy Berman.

-Bill Tong

I remember being jealous of Miss Reid's class because my classroom, Miss Claire's, had no slide. I remember painting on those huge easels and, along with every other girl in Kindergarten, copying Paula Spector's picture of a girl in a blue triangle skirt jumping rope.

-Barb Wittert Apgar

Grade School Fads

Here are some school supplies that I remember being common or fashionable from about 1st grade through 5th grade (1965-1969): vinyl-covered cardboard briefcases, slide-top pencil cases with a slide-rule device that did multiplication tables, Sheaffer fountain pens with disposable ink cartridges, and Scripto mechanical pencils.

-Bill Tong

Strange School Rules

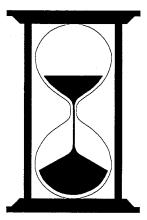

One of the most ridiculous school rules I ever suffered under was that for my entire nine years at Peterson, I was forbidden by the crossing guards to cross Kimball Avenue to school from the southwest corner of Kimball and Bryn Mawr, just a short distance from my house. Instead, I was forced to walk south along Kimball for one block, cross Kimball at Catalpa, only to backtrack north along Kimball for almost a block to get to the school entrance!

-Bill Tong

Teacher Updates!

Mr. Donald Andrews retired from teaching at Peterson School in June of 1987. Dr. Andrews is a licensed optometrist, and his practice is located in Jefferson Park in Chicago.

Mr. Donald Wahle retired from teaching at Peterson School during the late 1980's, and moved to the state of Washington. He had served as interim Assistant Principal at Peterson School shortly before retirement.
